Robert Steele
1055 North - 400 East
Nephi, Utah 84648

DIVISION OF
OIL GAS & MINING

Dear Mr. Steele:

Your notice to conduct mining related operations on mining claim Sleeper #1, UMC serial number, 321860 located in NE $\frac{1}{4}$, Sec. 5, T. 12 S., R. 6 W., SLBM was received on August 24, 1992 and has not been accepted by this office. Your notice has been assigned case file number UT-054-92-14N.

Thank you for meeting members of my staff on August 27, 1992 for a field compliance inspection, which was conducted at the site referenced by your mining notice. At the inspection it was observed that approximately one half mile of existing access road had been bladed that morning by a bulldozer. Your notice specifically states that no improvements to existing roads are proposed. This statement is inconsistent with observations made during the field inspection. Consequently, your operations are in noncompliance with the regulations contained in 43 CFR 3809.1-3(c)(3). To bring your operations into compliance, you are required to amend your present notice to include the road work noted above. The amendment may be accomplished by letter or by re-submitting a new notice. The new notice should describe all of the past surface disturbing activities on your claim along with any additional operations you intend within the next calendar year.

Enclosed is a form used to submit a notice or plan of operations, a map of the area containing Sleeper #1 claim and the Utah Division of Oil Gas and Mining's standard operating procedures for all mining operations conducted under a mining notice.

If you have any questions regarding this letter or would like assistance filling out the enclosed form, please feel free to contact Rody Cox at (801) 743-6811.

0001

We greatly appreciate your cooperation in this matter. Thank you for submitting your notice.

Sincerely,

A handwritten signature in cursive script, appearing to read "Rex Rowley".

Rex Rowley
Area Manager

Enclosures:

1. Notice/plan of operations form
2. Map
3. Standard operation procedures
